

New Health Measures for Respiratory Illness Season

Effective Oct. 3, 2023

The Ministry of Health has provided new guidelines for the respiratory illness (e.g., influenza, COVID-19) season.

- Masks are required in all patient-facing areas, including lobbies, waiting areas and elevators
- Ambassadors will be at facility entrances to screen for signs of respiratory illnesses and hand out medical masks

Let's work together

- Practice good hand hygiene. Wash your hands frequently with soap and water or use hand sanitizer when soap and water are not readily available
- If you are feeling unwell, or have been in close contact with a confirmed case, please stay home and seek medical advice
